## Medical Oncology & Hematology

Dear colleagues,

The 1<sup>st</sup> Medical Oncology and Hematology Board Review Course is taking place in January 28<sup>th</sup> - 31<sup>st</sup> 2015 at Eugenides Foundation( Planetarium) in Athens. The Organizing Committee is willing to deliver a comprehensive educational course with high quality lectures and review sessions by world-experts in their field that will certainly add to the education of practicing oncologists who want to up-date their knowledge and fellows in training preparing for their exams, on issues relevant to Solid Tumors and the most common Hematological Malignancies.

Attendees should learn the standard of care in hematology & oncology, from diagnosis and staging to treatment and follow up or even end of life support principles from the international experts. In addition, attendees will have the opportunity to be familiar with the novel treatments and latest developments in oncology and hematology. Finally, they will be able to discuss and clarify the grey areas in medical oncology & hematology and learn how experts approach issues not covered by international guidelines.

We hope that all participants - organizing committee, speakers and attendees - will enjoy these 4 days full of education and interactive sessions of the most interesting topics of hemo-oncology and will improve their knowledge and their skills.

*Sincerely*

**A. Psyrri**  
President  
of Organizing Committee

**V. Pappa**  
Vice President  
of the Organizing Committee
